

Event: Industry Day for the future United States Coast Guard Facility

Date: October 9, 2013

Time: 10:00 AM

Location: Omni Corpus Christi Hotel Bayfront Tower
Bayview Conference Room
900 North Shoreline Boulevard
Corpus Christi, TX 78401

FD Stonewater and Lynxs Group are hosting a CONSTRUCTION INDUSTRY DAY for the development a 167,000 gross square foot United States Coast Guard facility at the Corpus Christi International Airport. This event is open to all construction related professionals and consultants seeking more information about this opportunity. The anticipated start date for earthwork and utilities is December 2013.

The USCG facility will be situated on approximately 9.5 acres located at 201 West Glasson Drive at the Corpus Christi International Airport with direct aircraft access to the runways. The facility is a build-to-suite office building and aircraft hangar with 3 levels above grade and 201 parking spaces. The office building portion will utilize tilt wall construction and the hangar will be a prefabricated metal building. The interior components will consist of office space, support space, mission critical command facilities, data centers, berthing areas for ready crews, and amenities such as food service, fitness center, and an outdoor courtyard.
